

HOW TO MAKE A SEEDLING POT FROM NEWSPAPER

1

Start with a sheet of newspaper

2

Fold it down 6"

3

Fold it lengthwise

4

Wrap around a jar with the fold against the opening

5

Fold down the bottom and tape it

6

Turn right side up and remove the jar.

Fill with potting soil and your favorite seed or plant.

7

Voila! A seedling pot!

This is an easy and fun way to start growing your own plants! We used a small jar in the pictures above but you can use a small food can or even a peanut butter plastic jar.

Once the seedlings have grown, they can go right into the ground in their newspaper pots and the paper will eventually decompose!
